

STABER

Introduction and Capabilities

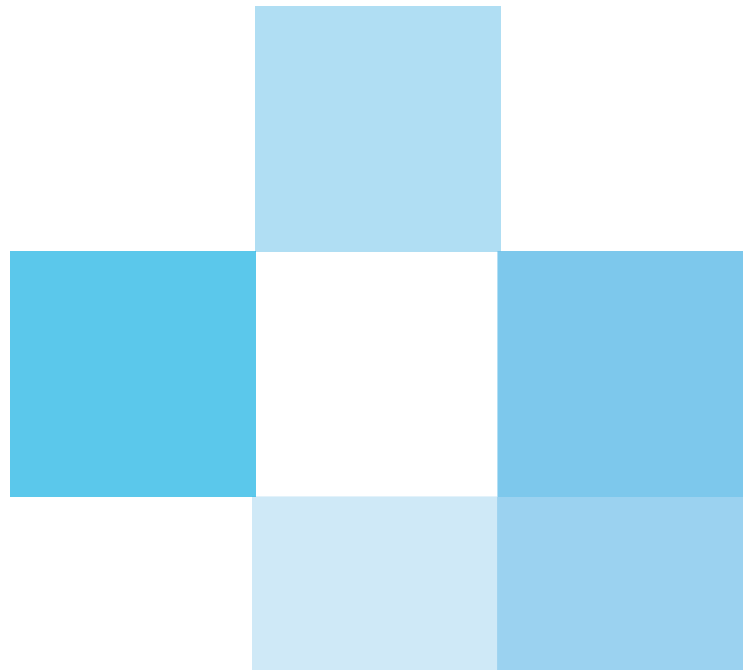

Our History

Who Is Staber Industries?

An All-American Small Business in an All-American Small-town.

Staber Industries has been family owned and operated since 1976 in Groveport, Ohio. Staber began re-manufacturing laundry equipment in 1976 from manufactures such as Maytag, Whirlpool, Ge and Speed Queen. Based upon this experience, we were able to implement design improvements for a new type of clothes washer and have patented a unique design that can clean more effectively than circular tubs.

Staber also has technologies for laser cutting, metal fabrication, vapor degreasing and powder-coat painting. Staber Industries has expanded its manufacturing processes to drying cabinets that serve the medical, fire and laundry equipment sectors as well as other product lines.

Our Beliefs

Mission and Vision

Absolute Satisfaction

Our customers must be satisfied with every aspect of our work and we take the steps necessary to ensure, Absolute Satisfaction.

Total Package

Individual items don't make a great product, We deliver the Total Package.

Grade of A+

Customer service and the finished product, Nothing short of a Grade of A+.

Best Product

Meeting or Exceeding our customer's expectations, Deliver the Best Product that can be made today - Working toward Constant Process Improvement

Enthusiastic
