## Staber 2 Gear PPE Drying Cabinets

- The 2 Gear Cabinets (Powder Coat- White and Stainless Steel) are insulated double wall constructed for increased Energy Efficiency. The 2G Cabinets with 2 removable shelves and hanger rods are designed to dry a wide range of PPE Gear that can't be dried using conventional (Tumble) drying methods.
- The 2G Cabinets are designed for drying all types of turnout gear - jackets, pants, boots, gloves, parkas & miscellaneous items safely and according to NFPA-1851 guidelines.
- The reversible door (hinged on either the left or right side) swings wide and out of the way for quick and easy loading and unloading.

**Model FDC - 2G**

## Features

- The Staber 2 Gear PPE Drying Cabinet is designed with low maintenance and versatility.
- The interior of the PPE dryer boasts a capacity of 17.5 cubic feet of total drying area.
- There is one top hanging rod and two additional lower tray shelves which provides versatility to the PPE dryer. Each shelf has 2.5 square ft. of drying area. Also included are four stainless steel hangers.
- Insulated Double Wall construction for increased energy efficiency.
- Two hanging bars on door.

### Staber 6 Gear PPE Drying Cabinets

- The 6 Gear Drying Cabinet will extend the life of your fire hose, bunker gear and other fire house equipment.
- Eliminates frozen hose and dangerous hose towers.
- Avoids the damaging practice of drying on hot pavement or under intense sunlight.
- Provides extra hose storage.
- Custom built for firefighter turnout gear (PPE) and hoses.
- Simple controls with factory preset temperatures ensure proper drying temperature for each unique clothing or turnout item.
- It is made from heavy duty steel construction with a white powder coat finish.
- Ships from the factory with (4) coat hangers, 1 glove rack (holds 26 gloves), (2) boot hangers (holds 12 boots)  
Optional accessories include: coat hangers, boot hangers, glove hangers, multi-purpose hanger, and hose drying shelf.
- Also available with insulated double wall construction.

**The Standard 2201-6**

### Features

- Conforms to NFPA 1851 guidelines for PPE care and maintenance.
- Powder coated steel construction throughout ensures long life and corrosion-resistance.
- The control panel has 5 selectable temperature settings including a fan (air) only option.
- The drying times are selectable for up to 10 hours in increments of 15 minutes. Also can be set in continuous mode.
- The cabinet dries personal protective equipment rapidly.
- The unit contains a built-in floor drain to remove water drip off.
- Flush mounted, lockable slam latch secures the swing out doors.
- Each shelf can hold up to 100 lbs.
- 2 Year Limited Warranty.
